HARRIMAN IS IN A SERIOUS CONDITION

Reported Demise of the Railroad Magnate Denied by Doctor

HIGH HONORS TO BE PAID TO BOTH COOK AND PEARY

Stock Market Takes a Flurry When Rumors of Railroad Man's Death Becomes Current—Brokers Believe that Every Precaution Against a Raid Has Been Taken by Associates of Harriman.

(By Associated Press.)

ARDEN, N. Y., Sept. 7.—After a night of uncertainty it was determined shortly after midnight that E. H. Harriman is not in such a critical condition as the earlier reports indicated. Harriman's physician told a party of newspaper men that there was no cause for alarm. Shortly after 10 o'clock it was rumored that the railway magnate had passed away, but this was denied when Dr. Lyle made public the above information.

NEW YORK, Sept. 7.—E. H. Harriman's illness again sent a shiver through the world markets today and broke a hole in the prices here. The violence of the decline in prices was greatly aggravated by the fact that rumors were current before the market opened that the financier had died. Their harmful influence was not dissipated by the early guarded assertions of Harriman's official associates that they understood he was better after an attack of indigestion. It was a fact that the selling was not notably large even after the demoralizing break in prices. The demand was too cautious, however, to support the prices effectually, even against comparatively scanty selling. In pointing out the number of times that the report of Harriman's danger and even his actual death, have figured in the recent stock market speculation, the question is advanced whether there was much left in the way of effect on prices of such an event to be provided for. It was considered certain also, in view of the vast interests at stake and the sober procedure in such contingencies that the utmost precautions had been taken already to meet a sudden emergency, both in the administrative and financial affairs of the Harriman companies themselves and in the more sensitive organizations of the speculative markets.

When the market closed at the lowest prices of the day, it was accompanied by a reiterated bulletin affirming the low vitality of Harri-

man and of the great anxiety felt by his family and friends. The stock market had no opportunity to express its opinion of the statement of Harriman's condition as this was given to the Associated Press, and was not published until after the market closed. No other matter received any consideration during the day and the weak and feverish closing of the stock market showed a lack of any definite statement of its views on the problem confronting it.

Evidence pointing to a serious set-back in Harriman's condition, began to accumulate early in the afternoon, confirming the reports from unofficial channels which a large number of employees surrounding the sick man offered in great variety.

Three men, whose professional appearance would lead at once to the conclusion that they were physicians, rushed through town in an automobile to the Harriman residence, while there were other visitors; personal friends of the sick man, whose hurried arrival was taken to mean a change for the worse.

While Judge R. F. Levett, Harriman's business adviser, was in his office in New York during the day, attending a meeting of the directors of the Union and Southern Pacific railroads, it was learned tonight he left immediately after the meeting, and hurried to Arden. His hurried trip, it was believed, must have been the result of disquieting news from the Harriman house.

The marked slump in Union Pacific today is largely accounted for by the belief that reports of a most sensational nature were sent out by Harriman's business enemies.

RESCUED FROM A CAVE
(By Associated Press.)

FLAGSTAFF, Arizona, Sept. 7.—After being lost in the ice caves at Lake Mary, 10 miles below here, for nearly 24 hours, John Mohlenhaup, of Newark, Ohio, and J. S. Price, a recent arrival here, were rescued today by one of the numerous searching parties which had been in the cave all night and today. The men were nearly exhausted and badly frost bitten when found, and must soon have perished. They had torn up their clothing in an effort to make a rope with which to cross a crevasse, and had given up the attempt, when the searchers came upon them in a side chamber 150 feet under ground.

PAPERS GO TO WASHINGTON
(By Associated Press.)

NASHVILLE, Tenn., Sept. 7.—Secretary of War Dickerson stated tonight that the papers in the cases of the cadets recently dismissed from the United States military academy for hazing, and who came here to make personal appeal to the secretary for reinstatement, had been forwarded to the department at Washington. Judge Dickinson said he has given the appeals serious consideration, but declined to say anything further.

PEARY SAYS HE FOUND NO TRACE OF COOK'S FLAG

(By Associated Press.)

INDIAN HARBOR, Labrador, Sept. 7.—Despite his many hardships in the Arctic regions, Peary appears to be in the best of health and spirits. When told that Cook had reported finding the pole, those aboard the Roosevelt expressed surprise, and declined to make any statement other than that no trace of any previous expedition was found.

DANISH ROYALTY DECORATE DR. COOK WITH GOLD MEDAL

In Spite of Peary's Statement, Offers for Lectures and Books of Cook Have Doubled in Price.

(By Associated Press.)

COPENHAGEN, Sept. 7.—The remarkable result of Peary's rivalry with Dr. Cook for the discovery of the pole, is that Cook's profits from the enterprise are likely to be largely increased. He received offers today for his books and lectures at twice the figures previously tendered. The controversy is beginning to wax warm here.

Peary's statement is unanimously accepted as true, but there is a very large following also faithful to Dr. Cook. His lecture before the Geographical society tonight, however, added little to the information he had already given out in reference to the expedition. He repeated his intention to withhold the details until the publication of his book.

The king and queen, and Prince and Princess George of Greece and many members of the royal family witnessed the presentation to Cook of a gold medal by the crown prince, and listened to the explorer's lecture afterward.

Cook declared that his success was due to the pioneers and pathfinders to the pole and to the earlier explorers.

"We are particularly indebted to

SAN DIEGO WANTS FAIR WHEN CANAL IS COMPLETED

(By Associated Press.)

SAN DIEGO, Sept. 7.—A world's fair in San Diego in 1915 to celebrate the completion of the Panama canal, is the object of a company capitalized at \$1,000,000 and headed by John D. Spreckels, which has filed articles of incorporation here. There has been much agitation in favor of a Panama exposition in this city and the chamber of commerce recently appointed a committee to consider the project. The result of the movement is the incorporation of the "Panama-California Exposition company." In the directorate is Lyman J. Gage, former secretary of the treasury, and U. S. Grant, Jr.

DOESN'T WANT BULL FIGHT
(By Associated Press.)

PASADENA, Sept. 7.—The Pasadena Humane society addressed the State Humane society recommending a resolution opposing the plan to entertain President Taft with a bull fight when he meets President Diaz at Jaurez, Mexico. The resolution asks that the people of Mexico be requested to provide some other form of amusement.

STRIKERS ARE VICTORIOUS IN THEIR DEMANDS

(By Associated Press.)

PITTSBURG, Sept. 7.—The strike which has been in progress for 53 days against the Pressed Steel Car company's works at McKees Rocks, is over. The 5000 strikers have won a complete victory. Beginning next Thursday morning the men will return to work, according to a statement issued by the strikers' executive committee. Practically all the demands made by the men were granted.

National Geological Society Are Planning for a Brilliant Reception to the Two North Pole Explorers.

(By Associated Press.)

WASHINGTON, Sept. 7.—Peary today officially notified the National Geographical society that he had reached the North Pole. The board of managers of the society, through its president, Willis Moore, answered, extending the congratulations of the society. The board also gave out a message in which it stated that the society had decided to take no action regarding honors to Arctic explorers until after detailed observations and records were submitted and passed upon by competent authorities. The society is now planning a brilliant banquet for the

coming winter at which the star figures will be Cook and Peary, the two discoverers of the North Pole, and Lieutenant Shackleton, the British explorer who penetrated the farthest south in seeking the South Pole.

Acting Superintendent Frank Perkins of the coast geodetic survey, declared today that the dual discovery of the pole strengthens the claim of each explorer. The question now resolves itself into one of priority, and Peary and Cook doubtless will fight that out between themselves.

SLAIN BY SPURNED FIANCE
(By Associated Press.)

CRISFIELD, Md., Sept. 7.—A posse has been searching for three days without success for Isaac J. Waters, who killed Miss Mamie Gunby, his fiance, the daughter of a farmer, at a camp meeting near here last Sunday, the date set for their wedding.

Miss Gunby married Joseph Roley five years ago, but secured a divorce a year ago, restoring her maiden name. On Sunday Roley appeared at the camp meeting grounds and pleaded for a reconciliation. Waters was drawn into the discussion and it finally ended by Miss Gunby telling Waters that the proposed wedding must not be solemnized.

Later when Miss Gunby was walking about the grounds waters fired with a shotgun. He then reloaded the weapon, fired another load into the body of the young woman, and after holding his pursuers at bay for a few minutes, escaped.

BANKER KILLS HIMSELF
(By Associated Press.)

IRNWOOD, Mich., Sept. 7.—Former President Herman Jahn of the First National bank of Irnwood, committed suicide this afternoon by shooting himself through the heart. The bank failed in June and the president and other officials were to have been tried in the federal court next week on criminal charges.

BOY INJURED AT UNIVERSITY IS RECOVERING

RENO, Sept. 7.—Carl Milentz, the freshman injured Saturday in the tying up match, was last night able to leave his bed and is now out of all danger. This boy was tied hand and foot and was being carried across the football field toward the pen where freshmen were enclosed and painted, when he struggled so that the sophomores carrying him dropped him and then fell on him. His head was doubled under his body and it looked as if his neck had been broken. He was taken to the training quarters and a physician was called and later he regained consciousness. He was a very sick boy all Saturday afternoon, Saturday night and Sunday and for a time his condition was quite serious. The young man is registered from Grass Valley.

CARRIES HIGH GRADE FOR SIX YEARS

Six years ago John Livingstone, who is now living in Bodie, was injured in a blast in a mine at Gold Mountain, south of Tonopah. At times fragments of the rock have bothered him and he has had to have them removed. On Wednesday Dr. Dupulch removed three pieces from the muscles of Mr. Livingstone's left arm, one of them being as large as a pea.—Bodie Miner.

ROCKEFELLER CARES FOR OLD GARDENER

(By Associated Press.)

CLEVELAND, Sept. 7.—John Hotters, the old gardener employed at the East Fortieth street home of John D. Rockefeller, has been retired on a pension. He is 78 years old and has been in the employ of the oil king for 28 years.

Last Saturday his hands began to tremble so that he could hardly hold the pruning shears and finally he collapsed. Then came a message from Mr. Rockefeller that he need not worry, as his pay would go on just the same as long as he lived.

CUT OUT JOY RIDERS

(By Associated Press.)

WASHINGTON, Sept. 7.—Blacklisting joy riding and declaring for 18 years as the minimum age limit in the issuance of licenses to automobile drivers, most of the chauffeurs of Washington have organized a "Chauffeurs' Protective association," and affiliated as a union with the Knights of Labor. The new organization has sick benefit provisions, and its policy will be to expel from its ranks any chauffeur convicted of joy riding. The action of the chauffeurs is in line with a movement already launched in several other cities.

LARGE DAMS BREAK LOOSE IN ARIZONA

(By Associated Press.)

ALBUQUERQUE, N. M., Sept. 7.—The Blue Water Development company's dam, one of the largest private irrigation projects in the southwest, and the Zuni dam, a government reclamation project, both near Gallup, New Mexico, broke loose tonight. Ten miles of the Santa Fe tracks are reported completely torn loose and washed away, with thirty-five miles of track under water. No loss of life is reported.

NEW COMPANY IS INCORPORATED

Incorporation papers were filed yesterday at the county clerk's office for the Los Angeles-Tonopah Development company, which names its principal office as in Tonopah. The company has a capitalization of \$1,000,000, with a like number of shares valued at \$1 each. The incorporators are James H. Montearth, H. H. Twining and W. J. Moran, all of Tonopah.

RENDERS DECISION IN CIVIL CASE

Judge M. R. Averill, of the fifth judicial district court, yesterday rendered a decision in the case of Russell versus Maltesto, in favor of the plaintiff. The case was virtually settled out of court.

K. OF P. LODGE TO HOLD HOUSE WARMING			
Tomorrow night Mizpah Lodge No. 25, Knights of Pythias, will hold a house warming in their new castle hall over the postoffice. A large number of invitations have been extended by the members and a general good time will ensue. The new quarters have been fitted up in a handsome and comfortable manner and are far superior to the old hall. The affair will be more for the purpose of extending a general welcome to the visiting members.			
For neat printing try the Bonanza job department.
